RAMANANDA COLLEGE

Temple'(built in the age of the Pal rules) situated at the village of 'Bohulara', five km away from Onda village, is a special model of Rekhdeul. When the village named 'Kataboni'(a famous Baishnav Pith) was washed away by flood of the Dwarakeswar river,the villagers went to Bahularah village and there they established a temple of Radhaballav like the temple of Kantabani temple. So it is very notable that Bahularah is such a place where Jain cult ,Sanatan Hindu cult and Baishnav cult reigned in different times.

12. Outcome (4 – 5 Sentences): They students felt interested in such activities for their higher studies. They found many pieces of information of different literary, religious, historical and cultural spaces of old and medieval age.
13. Conclusion (4 – 5 Sentences): In conclusion it may be said that they were very excited at this excursion and were also energetic in their studies and eye-witness facts side by side. This excursion proves to be fruitful for the students.
14. Funding agency: RAMANANDA COLLEGE
15. Comments / Suggestions: This type of excursion/educational tour is very helpful for the students to absorb the actual learning through practical experience. We suggest to arrange such type of excursion every year.

Report of Excursion of History Department

A Report on Field Work / Excursion (6th & 7th March , 2020)

Name of the Department: History

Period of Excursion / Field Work: 06-03-20 to 07-03-20

No. of Teacher participants with name: Bishnupada Malik, Dr.Marinal Kanti Dhank, Ajit Debnath, Purnendu Bhattarcharya,

No. of Non-teaching participants with name: Basudeb Dey, Mridula Rajak

No. of student participants: 46

Place(s) visited: Murshidabad

Title of the Project: Role of Murshidabad Hazarduari Palace Museum in Cultural and Heritage Tourism

Objectives: The main objectives of this study are1) Find out the main cultural heritage components of Murshidabad Hazarduari Palace Museum 2) Find out the tourist carrying capacity 3) Main problems of Hazarduari Palace Museum 4) Govt. initiatives to develop this area as cultural heritage centre

Methodology: As the study concentrates on the possibilities of tourism development in Lalbagh region, Survey method has been adopted in the study to collect the primary data. Documentation of survey results in Murshidabad Hazarduari Palace Museum by response of 100 tourists, 10 industry representation, and of policy makers collected through after the field work. The

secondary data is to be collected from the public sources like-District gazette, Journals, Books, Thesis, Magazine, Newspaper, and Literature

Major findings: Gallery and exhibition Planning-This is the only museum of Murshidabad district where historical materials keep protected properly; but there, we think, many planning should be executed. • Periodic maintenance of Objects-Due to shortage of funding, periodic maintenance is executed after 1 year or more time. • Developing museum Publication-This is not noticeable.

Conclusion According to survey, it is said that Murshidabad Hazarduari Palace Museum is only museum in Murshidabad district; which protects many culturally important elements that are the resource of cultural and heritage tourism. Every year many tourists from different places come here and enjoy it. So, ASI and also Central govt. should take appropriate management to take care of the beautiful museum for Sustainable Cultural Heritage Tourism. Also, local municipality should take responsibilities to clean the area and of course, local govt. tries to increase the consciousness about the importance of heritage and tourism
