Objective	Focus	Programme outcome
The main Objectives of Yoga Training Program are - (i) To enable the student to have good health (ii) To practice mental hygiene (iii) To possess emotional stability (iv) To integrate moral values (v) To attain higher level of consciousness.	Yoga is a systematic practice of physical exercise, postures (called *asanas*), breathing techniques (*pranayama*), relaxation, and meditation. Most people are familiar with the physical poses of some yoga positions but don't know that yoga involves so much more. Yoga produces a union of body, mind and energy (or soul or spirit) to bring about a state of equanimity (calmness). The act of practicing poses encourages students to clear their mind and focus on the effort.	At the end of the course the students will be able to understand the enormous importance of yoga in daily basis and it provides them a sound knowledge on theory and practical aspects of yoga. Difficult Asanas, Kriyas, Pranayamas and Meditation will give them better learning and understanding. Yoga training will help them to improve self-discipline, awareness, focus and concentration in their life. They will be able to motivate and teach other people in society about basics of yoga and its importance in day to day life.
