As we know we have several local or native languages, so, this programme will help us to promote the preservation and protection of all the native languages. It will also help in the preservation of cultural heritage and cultural identity.

- **Programme outcome:**

We organized a rally in the town and a programme in our college campus. Our students went to several places holding posters in their hands which contained the common misspelled words. They also used slogans on the importance of their mother tongue. They tried to make the local people understand that using one's mother language at home will make it easier for children to be comfortable with their own cultural identity.
Besides, a quiz competition and a debate were organized in our college on the importance of the mother tongue. The students as well as the teachers participated in the programme with great enthusiasm.
